ADOPT-A-BOOK PROGRAM

For the past several years the school has asked parents to participate in a program to add much needed books to our library collection. We call this ADOPT-A-BOOK. Through the generosity of many school families we now have a more contemporary collection of fiction and non-fiction. We have a "wish list" of books that both the faculty and librarian feel are needed for the continued improvement.

This year we would like to add a number of titles by Patricia Polacco, materials to be used in the 5-7 & 7-9 cultural studies, and selected new fiction-some for all grade levels. All in all there are fifty titles we would like to add. The books are all \$14.50, (no increase in price in over five years-where else can you find that these days!). The list of titles is posted on our website, and on the bulletin board outside the library. In the past we have had families adopt all the books on our list and so have finished the program by mid-fall. Monetary donations to the library are welcome at *any* time and will be used, either as you direct, or at the discretion of the librarian.

To adopt your books, fill out the form and *return it with a check made out to WMS Adopt-a-Book for the correct amount.* We will not be able to fill your request without your check and we will fill requests on a first-come basis. These are all good books, but some titles will be more popular than others so please list second & third choices. If you are making your selection later in the school year *please* check with the librarian as to the availability of the listed titles, or simply mark the check **WMS Library Donation**. We will place a book plate with an inscription of your choice in the books and donors are thanked in the *Wednesday Weekly*.

Have a good summer and HAPPY READING,

Elizabeth Varley, Library Coordinator
